

| Device                            | Efficiency | Effectiveness |
|-----------------------------------|------------|---------------|
| Gas compressor                    | 0.95       | —             |
| Gas turbine                       | 0.93       | —             |
| Gas exhaust/boiler heat exchanger | —          | 0.85          |
| Water pump                        | 0.92       | —             |
| Steam turbine                     | 0.93       | —             |
